Recent cases

We acted for a father of a young boy whose mother was totally against him staying with his father. We were able to prepare him with knowledge of the court process and what the judge would take into account. After three court hearings the father was given an order allowing him to care for their son.

We advised a wife on a complex multi million-pound divorce and financial settlement. There were also issues involving children and who they should live with. The outcome was favourable with a substantial capital settlement, ongoing maintenance and the children staying with our client.

How we can help

We recognise that in family legal matters there are personal and emotional impacts on the whole family as well as financial costs. We work with you to ensure your matter runs smoothly resulting in the most positive outcome possible for you.

Where possible we solve matters outside of court through mediation, arbitration and other alternative methods. This approach not only saves you money but can also help to keep your relationship amicable and open to negotiations.

Many of our team are members of Resolution, the national organisation of family solicitors that is committed to a constructive, non-confrontational approach to family problems.
